

## TOOLS FOR THE HALLOWEEN CLASS

The following Halloween-pictures are a helpful guide for you so that you understand what you will be doing each time. Make sure you familiarize yourself with these tools:

ASSIGNMENT

CHAT

FORUM

GLOSSARY

QUIZ

SURVEY

WORKSHOP

CHOICE

**ASSIGNMENT:** A task you need to do on your own based on the vocabulary you know and the things you have learned about Halloween.

**CHAT:** Here you can discuss live (real-time) about a Halloween topic with other classmates. The discussion will take place either once (one-time activity) or it will be repeated at the same time each week.

**FORUM:** Here you can express your opinion, anytime you like, about a Halloween topic, you can add any picture or link you find relevant.

**GLOSSARY:** This is your Halloween dictionary where you can find information in alphabetical order. You will also be able to add a Glossary Entry as long as it is relevant to Halloween and is also approved by your teacher. Beware, some Glossary Entries will be rated by your teacher and other classmates.

**QUIZ:** These are funny tasks either for fun or for grading your knowledge on Halloween.

**SURVEY:** This is a useful tool for your teacher in order to understand your preferences, your needs and better design future Halloween material.

**WORKSHOP:** This is a place where you will have to upload your digital homework. This homework might be a reading task, a writing or a mini-project. You will receive two grades, one for submitting your homework on time and another grade by your classmates. There will be posted samples from your teacher as well as the criteria necessary for you to grade the work of others.

**CHOICE:** Here you will answer a multiple choice questionnaire which will help your teacher find out what you already know and what you need to know more about Halloween.
